Scheme of Studies

An Associate Degree is a two-year post-intermediate or equivalent academic degree to be awarded by public & private Universities/DAIs primarily in market driven subjects based on local and regional community and industry The Associate Degree holder will be a simple "Graduate" as this degree will be equivalent to a BA/BSc (Pass) degree as far as the level of the degree is concerned. It aims to give students the basic technical and academic knowledge and transferable skills they need to go on to employment or further study in their chosen field.

The concept of Associate Degree originates from the United States and, is being executed in many technically advanced countries including Canada, Australia and Japan etc. An Associate Degree program is normally structured to be conducted over four regular semesters over a two years period and consists of 65-68 credit hours.
