2024-25

Mirpur University of Science and Technology (MUST), Mirpur AJ&K

DEPARTMENT OF Computer System Engineering

Vision:

To be among the nation's premier computer systems engineering departments providing solutions in the field of engineering and emerging technologies to meet national and international socioeconomic challenges."

Degree Programs Offered

B.Sc. (Computer Systems Engineering)
M.Sc. (Computer Systems Engineering)
Ph.D. (Computer Systems Engineering)

Chairperson:

Engr. Dr. Zafar Ali Khan

Tel: +92-5827-960037

E-mail: chairman.cse@must.edu.pk

Message from Chairperson:

At the Mirpur University of Science and Technology, the Department of Computer Systems Engineering stands as a beacon of innovation and excellence. We are dedicated to equipping students with the critical, industry-relevant skills needed to thrive in today's fast-evolving technological landscape. Our department strives to foster not only academic excellence but also the confidence and leadership required for professional success.

With access to cutting-edge labs and a faculty passionate about the latest advancements in technology, students are immersed in a dynamic learning environment. Our goal is to empower them with both technical expertise and problem-solving capabilities, preparing them to be future leaders in their field.

Graduates from our department have access to a broad spectrum of career opportunities, including roles in mobile telecommunications multinationals, Pakistan Telecommunication Company Limited (PTCL), the Research Industry, the Pakistan Navy,

Pakistan International Airlines (PIA), the National Database and Registration Authority (NADRA), and many more. Moreover, our alumni excel in areas such as software development, banking, stock exchanges, and public sector organizations like the Atomic Energy Commission and the Pakistan Railways.

Upon completing their degrees, students are not only well-positioned for immediate employment but also eligible to pursue postgraduate education in specialized fields.

B.Sc. Computer Systems Engineering

The Department of Computer Systems Engineering was established in 2005, and since then it has continuously expanded and is on the road of progress. It is the pioneer department in its field in the state of AJ&K and has been imparting a useful and erudite workforce to the nation. The facilities and opportunities for faculty and students are exemplary.

Admission Requirements

- F.Sc. Pre-Engineering/Pre-Medical/ICS (Math, Physics, Computer Science) at least 60 %-marks
- OR
- 3 Year post-metric Diploma of Associate Engineer in the relevant field with a minimum of 60% marks.
- Candidates are required to pass an entrance test to fulfil the eligibility criteria.

Program Educational Objectives (PEOs)

- Be able to address real-life problems by translating learned engineering knowledge for designing and implementing computing systems.
- Be able to apply in-depth computer systems engineering knowledge to identify and solve technical challenges fulfilling the needs of society with consideration of the environmental impact and ethical values.
- Be able to lead as an individual or contribute as a team member and continually adapt with the upcoming trends of technology by continuous professional development for meeting individual and societal goals.

PEOs conformity with the department's vision and mission

	<i>Department Vision</i>	<i>Department Mission</i>
PEO 1	<i>Solution provision</i>	<i>Problem solver</i>
PEO 2	<i>Societal challenges</i>	<i>Social values</i>
PEO 3	<i>Intellectual development</i>	<i>Life-long learners</i>

Laboratories

The laboratories in the Computer Systems Engineering Department are vital components of the department's teaching and learning environment, designed to provide students with hands-on experience and practical application of theoretical concepts. These state-of-the-art facilities are equipped with the latest tools, instruments, and technology to support diverse academic programs and research initiatives.

Computer Lab:

The department has a well-equipped lab with the latest computers, which cover Digital Image Processing, Artificial Intelligence, DBMS, Workshop Practice, Computer Networks, Mobile Wireless

Networks, Computer Fundamentals and Computer Programming subjects.

Embedded Lab:

The embedded system lab is equipped with the latest computers, Microprocessor/Micro-controller trainers, Digital trainers and FPGA kits for various subjects like Microprocessors & Interfacing, Computer Architecture, Digital System Design, Digital Logic Design, Data Structure & Algorithms.

Communication/DSP Lab:

The Communication lab has Analog and Digital communication trainers, DSP trainers, oscilloscopes, DSK module kits, function generators, and computers for various subjects, such as digital Signal Processing, Communication Systems, and Signals & systems.

Digital and Electronics Lab.

The department has developed the lab for Digital design, circuit analysis, Electronic Devices and applied physics subjects. Lab has equipment like Digital trainers, oscilloscopes, multimeters, function generators, and power supplies to test and debug circuits.

Project Lab.

The department also has a final-year project lab where students design and implement their final-year projects.

M.Sc. Computer Systems Engineering Program

Admission criteria

- BS/BE/BSc. Degree in Computer (Systems) Engineering, Software Engineering, Electronic Engineering, Electrical Engineering, Telecommunication Engineering, or a four-year degree in any other relevant discipline with a minimum of 65% marks in the semester system and a minimum of 50% marks in the annual system.
- Candidate has no 3rd division in his/her academic career.
- Registered with the Pakistan Engineering Council (PEC).
- Candidate must have passed GAT/HAT/NTS general test, or equivalent test acceptable by the HEC/University.

Duration

- Two years (four semesters).
- Minimum 31 credit hours from graduate Computer (Systems) Engineering courses.

Degree Requirements

To obtain M.Sc. (CSE) degree, a student must:

- Pass five (05) Core courses (15- credit hours).
- Pass three (03) Elective courses (09-credit hours).
- Satisfactorily complete a Research Project Thesis of 6 credit hours.
- Pass seminar of 1 credit hour.
- Pass a minimum of 31 credit hours.

Success Stories

I entered the gates of MUST as an ambitious yet completely raw and vacillated creature, but the excellent academic and social blessings of MUST transformed me into a goal oriented professional. MUST in general and the Computer Systems Engineering (CSE) Department particularly developed an attitude of creativity and exploration that became the baseline of my professional career.

As an Alumnus, I feel firmly connected to my alma mater through every walk of my life. I am grateful to my devoted and highly learned teachers of Computer Systems Engineering who invested into me and I owe every bit of my success to them.

Engr. Farhad Aslam
CSE Session 2006-2010
Program Architect
Artificial Intelligence
at Afiniti USA

During my stay at MUST, I got a chance to find my interests and polish my skills. Being a part of one of MUST most prestigious schools was a great experience. The faculty and staff at CSE are very encouraging and helpful. They helped me grow not only in academics but also as a human being. I learnt to balance my social life and work. CSE taught me how to be productive under stress. It also taught me to not worry about things too much because everything happens for a reason. MUST give you a hard time but it's all worth it in the end.

Engr. Amjid Hussain

(POF),
Former PACS/HMIS Manager at
PACSLINK CORPORATION PVT.LTD.

Having studied Computer Systems Engineering at the MUST, AJK I have already been doing freelance software projects since my 3rd semester, when I was in 7th semester, I decided to start with the UK based digital marketing and Web design agency, Mangobit Ltd. I was into my career in the final year of my engineering degree as a young entrepreneur serving my clients globally having a UK based agency. In 2020 I decided to invest locally in surveillance and solar energy services Company named A&R Technologies, Ltd. Going from Computer Systems Engineering student to owner of AJK's Largest Digital, Surveillance and Solar Energy Company is an interesting route. As ex-president of AKCS (A departmental Society for tech skills) I am always available for free training sessions for MUST students.
